

**Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of the claims in the application:

**Listing of Claims:**

1. (Currently Amended) An acne treatment regimen comprising the steps of:
  - a) cleansing the skin of an individual afflicted with acne with an acne cleanser composition ~~containing~~ comprising an anti-acne active and one or more cleansers;
  - b) applying an acne spot treatment composition to at least one lesion on the skin of the individual, the acne spot treating composition ~~containing~~ comprising an anti-acne active ingredient;
  - c) applying a hydrating day cream composition to the skin of the individual, the hydrating day cream composition ~~containing~~ comprising an anti-acne active ingredient and a combination of farnesol and sodium hyaluronate; and
  - d) applying an acne night cream composition to the skin of the individual, the acne night cream composition ~~containing~~ comprising an anti-acne active ingredient and a combination of farnesol and sodium hyaluronate.

2. (Cancelled)
3. (Cancelled)
4. (New) The acne treatment regimen of claim 1, wherein said anti-acne active is selected from the group consisting of benzoyl peroxide, stabilized hydrogen peroxide, lauroyl peroxide, clindamycin, neomycin, sodium sulfacetamide, sulfur, tetracycline, erythromycin, salicylic acid and salt and esters thereof, and combinations thereof.
5. (New) The acne treatment regimen of claim 1, wherein the amount of said anti-acne active is present in each composition in an amount ranging from about 0.01 to 10 percent by weight of each composition.
6. (New) The acne treatment regimen of claim 1, wherein amount of said anti-acne active is present in each composition in an amount ranging from about 0.1 to 5 percent by weight of each composition.
7. (New) The acne treatment regimen of claim 1, wherein amount of said anti-acne active is present in each

composition in an amount ranging from about 0.5 to 3 percent by weight of each composition.

8. (New) The acne treatment regimen of claim 1, wherein said one or more cleansers is selected from the group consisting of anionic agents, nonionic agents, cationic agents, amphoteric agents, alkylglycosidic surface active agents, and combinations thereof.
9. (New) The acne treatment regimen of claim 8, wherein said anionic agent is selected from the group consisting of alkyl sulfates, alkyl ether sulfates, water soluble salts corresponding to the formula  $R_1-SO_3-M$ , the reaction product of fatty acids esterified with isethionic acid and neutralized with an alkaline reagent, sulfonated fatty acids, acyl isethionates, acyl glutamates, sulfosuccinate salts, carboxylates, acyl lactylates, alkylglyceryl ether sulfonates, olefin sulfonates, and combinations thereof.
10. (New) The acne treatment regimen of claim 8, wherein said nonionic agent is selected from the group consisting of polyethylene oxide condensates of  $C_6-C_{12}$  alkylphenols, condensates of ethylene oxide with the reaction product

of propylene oxide and ethylenediamine, long chain tertiary amine oxides, long chain tertiary phosphine oxides, long chain dialkyl sulfoxides, and combinations thereof.

11. (New) The acne treatment regimen of claim 8, wherein said cationic agent contains positively charged amine groups.
12. (New) The acne treatment regimen of claim 8, wherein said cationic agent contains positively charged quaternary ammonium groups.
13. (New) The acne treatment regimen of claim 8, wherein said amphoteric agent is selected from the group consisting of betaines, sultaines, phosphobetaines, carboxylate, sulfonate, sulfate, phosphate, phosphonate, and combinations thereof.
14. (New) The acne treatment regimen of claim 1, wherein said acne cleanser composition further comprises additional ingredients selected from the group consisting of exfoliants, hydrators, skin brighteners, humectants, skin soothers, antifungals, antimicrobials, viscosity boosters, pearlizing agents, thickeners, preservatives,

fragrance, water softener, colorants, and combinations thereof.

15. (New) The acne treatment regimen of claim 1, wherein amount of said cleanser in said acne cleanser composition ranges from about 2 to 30 percent by weight of said acne cleanser composition.
16. (New) The acne treatment regimen of claim 1, wherein said acne spot treatment composition further comprises additional ingredients selected from the group consisting of exfoliators, pore reducing agents, hydrators, skin healers, humectants, moisturizers, circulation aids, oil absorbers, skin soothers, antifungals, antimicrobials, natural botanicals, solubilizers, neutralizers, thickeners, preservatives, fragrance, colorants, and combinations thereof.
17. (New) The acne treatment regimen of claim 1, wherein said farnesol and sodium hyaluronate are present in said hydrating day cream composition in a ratio in the range of about 30 parts farnesol to 1 part sodium hyaluronate to 10 parts farnesol to 1 part sodium hyaluronate.

18. (New) The acne treatment regimen of claim 1, wherein said farnesol and sodium hyaluronate are present in said hydrating day cream composition in a ratio of about 5 parts farnesol to 1 part sodium hyaluronate.
19. (New) The acne treatment regimen of claim 1, wherein said farnesol and sodium hyaluronate are present in said hydrating day cream composition in the range of about 0.1 weight percent to 100 weight percent based on the total weight of said hydrating day cream composition.
20. (New) The acne treatment regimen of claim 1, wherein said farnesol and sodium hyaluronate are present in said hydrating day cream composition in the range of about 0.3 weight percent to 10 weight percent based on the total weight of said hydrating day cream composition.
21. (New) The acne treatment regimen of claim 1, wherein said hydrating day cream composition further comprises additional ingredients selected from the group consisting of exfoliators, skin brighteners, sebum control agents, pore reducing agents, hydrators, skin healers, humectants, moisturizers, circulation aids, oil absorbers, skin soothers, antifungals, antimicrobials,

natural botanicals, solubilizers, neutralizers, thickeners, preservatives, water softener, fragrance, colorants, and combinations thereof.

22. (New) The acne treatment regimen of claim 1, wherein said farnesol and sodium hyaluronate are present in said acne night cream composition in a ratio in the range of about 100 parts farnesol to 1 part sodium hyaluronate to 40 parts farnesol to 1 part sodium hyaluronate.
23. (New) The acne treatment regimen of claim 1, wherein said farnesol and sodium hyaluronate are present in said acne night cream composition in a ratio of about 60 parts farnesol to 1 part sodium hyaluronate.
24. (New) The acne treatment regimen of claim 1, wherein said farnesol and sodium hyaluronate are present in said acne night cream composition in the range of about 0.1 weight percent to 100 weight percent based on the total weight of said acne night cream composition.
25. (New) The acne treatment regimen of claim 1, wherein said farnesol and sodium hyaluronate are present in said acne night cream composition in the range of about 0.3 weight

percent to 10 weight percent based on the total weight of said acne night cream composition.

26. (New) The acne treatment regimen of claim 1, wherein said acne night cream composition further comprises additional ingredients selected from the group consisting of exfoliators, skin brighteners, pore reducing agents, hydrators, skin healers, humectants, moisturizers, circulation aids, oil absorbers, skin soothers, antifungals, antimicrobials, natural botanicals, solubilizers, neutralizers, thickeners, preservatives, fragrance, colorants, and combinations thereof.
27. (New) A kit for the treatment of acne comprising:
- a) a container of the acne cleanser composition of claim 1;
  - b) a container of the acne spot treating composition of claim 1;
  - c) a container of the hydrating day cream composition of claim 1; and
  - d) a container of the acne night cream composition of claim 1.
28. (New) A composition comprising:

an anti-acne active ingredient and a combination of farnesol and sodium hyaluronate.

29. (New) An acne treatment regimen comprising the steps of:
- a) cleansing the skin of an individual afflicted with acne with an acne cleanser composition comprising salicylic acid and one or more cleansers;
  - b) applying an acne spot treatment composition to at least one lesion on the skin of the individual, the acne spot treating composition comprising salicylic acid;
  - c) applying a hydrating day cream composition to the skin of the individual, the hydrating day cream composition comprising salicylic acid and a combination of farnesol and sodium hyaluronate; and
  - d) applying an acne night cream composition to the skin of the individual, the acne night cream composition comprising salicylic acid and a combination of farnesol and sodium hyaluronate.
30. (New) The acne treatment regimen of claim 29, wherein amount of said salicylic acid is present in each composition in an amount ranging from about 0.01 to 10 percent by weight of each composition.

31. (New) The acne treatment regimen of claim 29, wherein amount of said salicylic acid is present in each composition in an amount ranging from about 0.1 to 5 percent by weight of each composition.
32. (New) The acne treatment regimen of claim 29, wherein amount of said salicylic acid is present in each composition in an amount ranging from about 0.5 to 3 percent by weight of each composition.
33. (New) The acne treatment regimen of claim 29, wherein said one or more cleansers is selected from the group consisting of anionic agents, nonionic agents, cationic agents, amphoteric agents, alkylglycosidic surface active agents, and combinations thereof.
34. (New) The acne treatment regimen of claim 33, wherein said anionic agent is selected from the group consisting of alkyl sulfates, alkyl ether sulfates, water soluble salts corresponding to the formula  $R_1-SO_3-M$ , the reaction product of fatty acids esterified with isethionic acid and neutralized with an alkaline reagent, sulfonated fatty acids, acyl isethionates, acyl glutamates,

sulfosuccinate salts, carboxylates, acyl lactylates, alkylglyceryl ether sulfonates, olefin sulfonates, and combinations thereof.

35. (New) The acne treatment regimen of claim 33, wherein said nonionic agent is selected from the group consisting of polyethylene oxide condensates of C<sub>6</sub>-C<sub>12</sub> alkylphenols, condensates of ethylene oxide with the reaction product of propylene oxide and ethylenediamine, long chain tertiary amine oxides, long chain tertiary phosphine oxides, long chain dialkyl sulfoxides, and combinations thereof.
36. (New) The acne treatment regimen of claim 33, wherein said cationic agent contains positively charged amine groups.
37. (New) The acne treatment regimen of claim 33, wherein said cationic agent contains positively charged quaternary ammonium groups.
38. (New) The acne treatment regimen of claim 33, wherein said amphoteric agent is selected from the group consisting of betaines, sultaines, phosphobetaines,

carboxylate, sulfonate, sulfate, phosphate, phosphonate, and combinations thereof.

39. (New) The acne treatment regimen of claim 29, wherein said acne cleanser composition further comprises additional ingredients selected from the group consisting of exfoliants, hydrators, skin brighteners, humectants, skin soothers, antifungals, antimicrobials, viscosity boosters, pearlizing agents, thickeners, preservatives, fragrance, water softener, colorants, and combinations thereof.
40. (New) The acne treatment regimen of claim 29, wherein said cleanser ranges from about 2 to 30 percent by weight of said acne cleanser composition.
41. (New) The acne treatment regimen of claim 29, wherein said acne spot treatment composition further comprises additional ingredients selected from the group consisting of exfoliators, pore reducing agents, hydrators, skin healers, humectants, moisturizers, circulation aids, oil absorbers, skin soothers, antifungals, antimicrobials, natural botanicals, solubilizers, neutralizers,

thickeners, preservatives, fragrance, colorants, and combinations thereof.

42. (New) The acne treatment regimen of claim 29, wherein said farnesol and sodium hyaluronate are present in said hydrating day cream composition in a ratio in the range of about 30 parts farnesol to 1 part sodium hyaluronate to 10 parts farnesol to 1 part sodium hyaluronate.
43. (New) The acne treatment regimen of claim 29, wherein said farnesol and sodium hyaluronate are present in said hydrating day cream composition in a ratio of about 5 parts farnesol to 1 part sodium hyaluronate.
44. (New) The acne treatment regimen of claim 29, wherein said farnesol and sodium hyaluronate are present in said hydrating day cream composition in the range of about 0.1 weight percent to 100 weight percent based on the total weight of said hydrating day cream composition.
45. (New) The acne treatment regimen of claim 29, wherein said farnesol and sodium hyaluronate are present in said hydrating day cream composition in the range of about 0.3

weight percent to 10 weight percent based on the total weight of said hydrating day cream composition.

46. (New) The acne treatment regimen of claim 29, wherein said hydrating day cream composition further comprises additional ingredients selected from the group consisting of exfoliators, skin brighteners, sebum control agents, pore reducing agents, hydrators, skin healers, humectants, moisturizers, circulation aids, oil absorbers, skin soothers, antifungals, antimicrobials, natural botanicals, solubilizers, neutralizers, thickeners, preservatives, water softener, fragrance, colorants, and combinations thereof.
47. (New) The acne treatment regimen of claim 29, wherein said farnesol and sodium hyaluronate are present in said acne night cream composition in a ratio in the range of about 100 parts farnesol to 1 part sodium hyaluronate to 40 parts farnesol to 1 part sodium hyaluronate.
48. (New) The acne treatment regimen of claim 29, wherein said farnesol and sodium hyaluronate are present in said acne night cream composition in a ratio of about 60 parts farnesol to 1 part sodium hyaluronate.

49. (New) The acne treatment regimen of claim 29, wherein said farnesol and sodium hyaluronate are present in said acne night cream composition in the range of about 0.1 weight percent to 100 weight percent based on the total weight of said acne night cream composition.
50. (New) The acne treatment regimen of claim 29, wherein said farnesol and sodium hyaluronate are present in said acne night cream composition in the range of about 0.3 weight percent to 10 weight percent based on the total weight of said acne night cream composition.
51. (New) The acne treatment regimen of claim 29, wherein said acne night cream composition further comprises additional ingredients selected from the group consisting of exfoliators, skin brighteners, pore reducing agents, hydrators, skin healers, humectants, moisturizers, circulation aids, oil absorbers, skin soothers, antifungals, antimicrobials, natural botanicals, solubilizers, neutralizers, thickeners, preservatives, fragrance, colorants, and combinations thereof.
52. (New) A kit for the treatment of acne comprising:

- a) a container of the acne cleanser composition of claim 29;
- b) a container of the acne spot treating composition of claim 29;
- c) a container of the hydrating day cream composition of claim 29; and
- d) a container of the acne night cream composition of claim 29.

53. (New) A composition comprising:  
salicylic acid and a combination of farnesol and sodium hyaluronate.
